"To-go" never looked so good! With its safe, heavy duty plastic, the can be reused, re-washed, and eventually recycled at the end of its 4+ year lifespan.

All resident students are automatically enrolled in the Eco-Clamshell Program. Residents who do not wish to participate should complete the opt-out form on the Card Office website: <a href="http://www.oxy.edu/card-office">http://www.oxy.edu/card-office</a> no later than September 13, 2013. Tokens for new enrollees will be available for pickup during lunch August 26-27 on Branca Patio outside of the Marketplace.

Faculty, staff and non-residential students (including students in Berkus, SAE, & Food Justice House) may join the program at any time by following these instructions:

Email your name, ID #, and class year or department to <a href="mailto:cardoffice@oxy.edu">cardoffice@oxy.edu</a>
-Takeout Enrollment. Enrollment carries over from year to year, so there is no need to re-enroll each year.

A one-time enrollment fee of \$5 will be charged to your meal plan, FLEX or discount every time you use an eco-clamshell instead of a disposable takeout container at the Marketplace.

Once you receive confirmation of your enrollment, visit the card office and pick up your first eco-clamshell token.

The Oxy community uses tens of thousands of disposable take-out containers each year. Some can be composted - but others will end up in landfills. The most sustainable option if you need to remove food from the Marketplace is the ecoclamshell. You can be part of the solution!

: Take your token to any staffed Marketplace station. Give your token to the service staff and receive your food in an eco-clamshell. If you would like to use your container at the *Salad Bar*, go to any staffed station and exchange your token for an empty container.

When using a clamshell at the Salad Bar:

Full Container = large salad

Half-full Container = medium salad

You will receive the \$.25 Eco-Clamshell discount at the register with each use of a clamshell. Large disposable containers cost \$.50. Enjoy your take out meal, guilt-free!

Bring your empty, rinsed container back to the bin at the Marketplace cashier stand and exchange it with the cashier for a token.

If there is a line at the cashier stand you may approach the cashier from the side, you do not need to stand in line.

REPEAT!

You were charged a \$5 enrollment fee for the EcoreW\*nBT1 0 0 1 221.33 55(
