

Rollover Accounts 2020-2021

Meal Plan	Price	Minus Base Cost	Balance*
-----------	-------	-----------------	----------

How do I get the maximum rollover? Is it late in the semester and you have more money in your account than expected? You are welcome to purchase items in bulk from the Marketplace or Tiger Cooler. However, you may also want to consider a rollover account. If you are on Plan A+, A, or B this semester and will be returning next semester, you qualify. Rollover accounts are accepted in any dining facility any time, including summer and winter breaks. If you move off campus later in your Oxy career, a rollover account can give you a cushion to your food budget. Rollover balances may not be used to purchase residential board plans, and they are not refundable. Your rollover account will end, and any balance will be forfeited when you graduate, or if you should go on a leave of absence or withdraw from Oxy. Subject to these conditions, if you study abroad under an Oxy-sponsored program, your rollover account will remain valid.

If you are on Plan A+:

You may leave up to \$770 in your account (including vending) and this amount will roll over. Excluding additional Meal Plan deposit(s), any amount over \$770 left from the starting balance will be forfeited.

If you are on Plan A:

You may leave up to \$480 in your account (including vending) and this amount will roll over. Excluding additional Meal Plan deposit(s), any amount over \$480 left from the starting balance will be forfeited.

If you are on Plan B:

You may leave up to \$330 in your account (including vending) and this amount will roll over. Excluding additional Meal Plan deposit(s), any amount over \$330 left from the starting balance will be forfeited.

Rollover Examples:

Example 1: Pia buys Plan A+, and her balance at the end of the semester (including vending) is \$300. Her rollover amount would be \$300

Example 2:

Sam buys Plan A, and his balance at the end of the semester (including vending) is \$500. His rollover amount would be \$480, the maximum for Plan A.

Example 3:

Freida buys Plan B, and her ending balance (including vending) is \$400. The maximum rollover on Plan B is \$330, which would be her rollover amount.

Example 5:

Sal buys Plan C or D. His ending balance (including vending) is \$50. His rollover amount would be \$0. There are no rollovers from Plans C or D.

I think I may have a rollover account from a previous semester and not know it. How can I find out? Enroll in on-line access to your card balances at <https://get.cbord.com/oxy>. Or ask any cashier to swipe your card and do a "balance inquiry".
